

EU-Chile partnership

March 2025

Critical Raw Materials

Implementing bilateral exchanges for sustainable CRM value chains.

Digital

- Strengthening and improving the Copernicus data repository in Chile, to give it a regional outreach
- Supporting the country and the region in accessing earth observation tools and technology
- Funding the development of a Copernicus business accelerator and the creation of an interactive educational center
- Enhancing the cyber resilience of Latin American public authorities
- Stimulating the development of innovative technological solutions in the field of cybersecurity, and providing training and assistance
- Supporting digital connectivity in remote rural areas, and interoperability of public digital information systems

Green Deal, Sustainable Growth & Jobs

- Boosting Renewable Hydrogen (RH2) through funding and technical cooperation
- Financing the Geothermal Development Instrument for Latin America
- Contributing to the self-consumption of renewable energy in SMEs
- Financing the development of renewable energy and energy efficiency projects, with focus on Critical Raw Materials (CRM)
- Supporting Banco Estado's 'Ecohousing' energy efficiency project

Governance, Social Cohesion & Human Rights*

- Enhancing the capacity of Chilean Civil Society Organisations (CSOs) that advocate for their local communities, promote participatory governance, and support grassroots initiatives
- Raising awareness around gender-based violence
- Strengthening access to justice, particularly in the case of juvenile criminal mediation
- Supporting a comprehensive national care policy
- Contributing to a greater transparency and accountability in the Chilean Congress and in CSOs
- Combatting transnational organised crime
- Backing Chile's implementation of a new drug policy to reduce drug consumption
- Contributing to border security and fighting human trafficking and migrant smuggling
- Exchanging experience, tools, and good practices on cybercrime
- Contributing to climate change adaptation and mitigation and environmental protection in collaboration with national and local governments, private sector, and CSOs

* This domain is outside Global Gateway but complementing engagement under it.

These outputs provide an overview of the main domains of actions of the EU in the partner country, pursuing a Team Europe approach.

The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the European Union.
